Exit Ticket

Thursday, October 29 · Module 2, Topic 2, Lessons 1–3 · Form B (like the End of Topic Assessment)

Name _____ Date _____ Period _____

1. The graph of linear function m is shown on the grid. Given f(x) = x and m(x) = a · f(x), what is the value of a?

a =

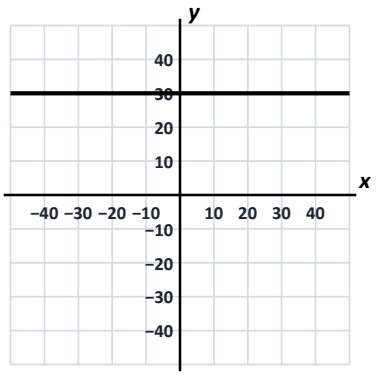

2. The daily cost of hiring a painter, y, to work x hours can be modeled using a linear function. The painter charges a fixed cost of $50, plus an additional cost of $30 per hour. The painter works a maximum of 8 hours per day. For one day of work, what is the range of the function for this situation?

A. 30 ≤ y ≤ 290
B. 0 ≤ x ≤ 8
C. 50 ≤ y ≤ 290
D. 0 ≤ x ≤ 290

3. What are the equation and slope of the line shown on the grid?

F. x = 30; slope is undefined
G. y = 30; slope is undefined
H. y = 30; slope is zero
J. x = 30; slope is zero

4. Marcus graphed f(x) and g(x) = f(x + 4) on the same coordinate grid. Which statement describes how the graphs of f and g are related?

A. The graph of the function f(x) is translated up 4 units to produce g(x).
B. The graph of the function f(x) is translated down 4 units to produce g(x).
C. The graph of the function f(x) is translated right 4 units to produce g(x).
D. The graph of the function f(x) is translated left 4 units to produce g(x).

5. What is the y-intercept of the linear function created by translating f(x), represented in the table, 3 units left?

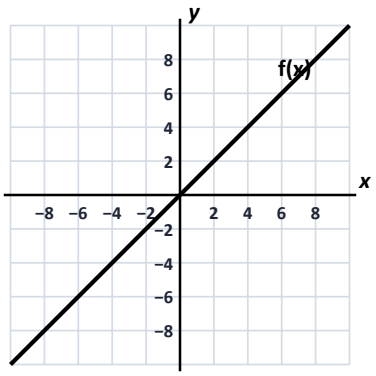

y-intercept =

x	f(x)
−2	−5
−1	−3
0	−1
1	1
2	3
3	5

6. Graph g(x) based on the given transformation of f(x).

f(x) = x g(x) = f(½x)

Equation of g(x):

7. What is the equation in slope-intercept form of the line that crosses the x-axis at −2 and is perpendicular to the line represented by $y = \frac{1}{2}x - 3$?

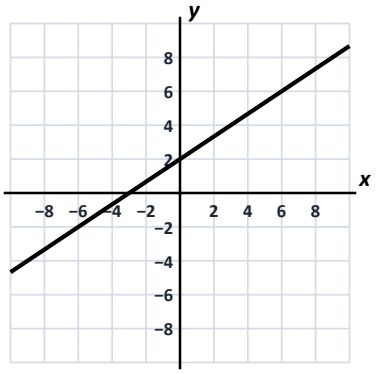

y =

8. What is the equation in slope-intercept form of the line that passes through the point (4, 0) and is parallel to the line represented by y = −2.5x + 1?

y =

9. Write an equation in point-slope form that represents the graph.

Equation:

10. The graph of a linear function is shown on the coordinate plane. Which statements describe the graph of the linear function? Select **TWO** correct answers.

F. The graph is increasing.

G. The slope of the line is −2.

H. The y-intercept is (0, 3).

J. The zero of the function is 3.

K. The zero of the function is 6.
