Lesson Plan · Tuesday, November 17

Algebra I · Mr. Pandey · Module 3, Topic 1, Topic 1 Review · essentials only (✪)

Objectives (students will…)

- Solve linear equations and classify one / no / infinite solutions.
- Rewrite linear equations and solve literal equations.
- Solve and graph linear inequalities, including context problems.

TEKS

- **A.5A**, **A.5B**, **A.2C**, **A.3A**, A.2B, A.12E

Key terms

- solution · no solution · infinite solutions · literal equation · linear inequality

Materials

- Review problems below (project or copy)
- Topic 1 Summary SE pp. 389–390
- Students' Self-Reflections (SE pp. 387–388)
- Whiteboards

Bell work (on the board)

- Self-Reflection: rate yourself 1–4 on Lessons 1, 2, 3 use to seat review groups
- $5x - 2 = 5x + 7$ no solution
- Solve $A = \ell w$ for ℓ $\ell = A/w$
- $-x \geq 3$ $x \leq -3$

Agenda (60 minutes)

Time	Activity	What to do / say
0–5	Bell work	Collect ratings; seat 1–2s near you.
5–20	Round 1 · Lesson 1 (whiteboards, I do / we do / you do)	1. $4(x - 1) = 2x + 6$ $x = 5$ 2. $3(2x + 1) = 6x + 3$ infinite 3. $7x - 1 = 7x + 4$ no solution Name a property for each step in #1.
20–35	Round 2 · Lesson 2	4. $2x + 5y = 20$ in slope-intercept; intercepts $y = -\frac{2}{5}x + 4$; (10, 0), (0, 4) 5. $y + 3 = 2(x - 1)$ in standard form $2x - y = 5$ 6. $A = \frac{1}{2}bh$ for h; A = 30, b = 12 $h = 2A/b = 5$
35–50	Round 3 · Lesson 3	7. $3x - 4 > 11$ $x > 5$ 8. $-5x + 2 \leq 17$ $x \geq -3$ 9. $2(x - 3) \geq 4x + 2$ $x \leq -4$ 10. Phone plan: \$30 + \$0.10 per text, budget at most \$45. $30 + 0.10t \leq 45 \rightarrow t \leq 150$ texts Graph 7–9.
50–58	Independent check	Students redo the problem type they rated lowest without notes. Check answers at the door. IEP/504: read aloud on request, properties/notes card, extra time.
58–60	Wrap up	Test tomorrow. Study: Topic 1 Summary SE pp. 389–390 and Lesson 1–3 homework.

Check for understanding

- Whiteboards every problem; re-teach any item under 70% right away.
- Thumbs on the flip rule before Round 3.

After class

- Note who still misses the flip rule or no/infinite solutions; give them a test-day reminder card.
- Re-teach list for Thursday retakes.

No publisher M3T1 test is in materials/ yet; these review problems follow the TEKS for Lessons 1–3.
