Lesson Plan · Tuesday, November 17

Algebra I · Mr. Pandey · Module 3, Topic 1, Topic 1 Review · essentials only (✪)

Objectives (students will…)

- Solve linear equations and classify one / no / infinite solutions.
- Rewrite linear equations and solve literal equations.
- Solve and graph linear inequalities, including context problems.

TEKS

- **A.5A**, **A.5B**, **A.2C**, **A.3A**, A.2B, A.12E

Key terms

- solution · no solution · infinite solutions · literal equation · linear inequality

Materials

- Topic 1 Review (REVIEW/T1-Review.pdf) + answer key · IEP and 504 versions
- Online self-check: m3t1-review.html (IEP/504 versions in IEP/ and Section 504/)
- Topic 1 Summary SE pp. 389–390 · Self-Reflections SE pp. 387–388 · whiteboards

Bell work (on the board)

- Self-Reflection: rate yourself 1–4 on Lessons 1, 2, 3 use to seat review groups
- $5x - 2 = 5x + 7$ no solution
- Solve $A = \ell w$ for ℓ $\ell = A/w$
- $-x \geq 3$ $x \leq -3$

Agenda (60 minutes)

Time	Activity	What to do / say
0–5	Bell work	Collect ratings; seat 1–2s near you. Hand out the Topic 1 Review.
5–15	I do · Q1–3 (multiple choice, like test Q1–3)	Model on the board: Q1 B. $y = 15x + 40$ Q2 J. No solution Q3 D. $t < -3$ (flip!) Say the test's order out loud: Lesson 3 → Lesson 1 → Lesson 3.
15–35	We do · Q4–8 (pairs, whiteboards up after each)	Q4 $x = 2$ Q5 infinite: both sides $4x + 10$ Q6 $y = 1.20x + 7.00$ Q7 $y = -2/5x + 3$ Q8 $h = V/(\ell w)$ Re-teach any item under 70% on the spot.
35–50	You do · Q9–11 (silent, test conditions)	Q9 $m < -6$, open circle, shade left Q10 $y = 3x + 10$ Q11 $n = 5$ (both areas 45) Students check with the online page; you pull the 1–2s for a small group.
50–58	Part 2 · extra practice (Q12–15)	Q12 F Q13 C. $x \leq -3$ Q14 $w = (P - 2\ell)/2$ Q15 $25 + 8c \leq 90$ → at most 8 classes Early finishers redo their lowest-rated lesson. IEP/504: read aloud on request, properties/notes card, extra time.
58–60	Wrap up	Test tomorrow, same order as today. Study: Topic 1 Summary SE pp. 389–390 and today's review.

Check for understanding

- Whiteboards on Q4–8; re-teach any item under 70% right away.
- Thumbs on the flip rule before Q9.

After class

- Note who still misses the flip rule or no/infinite solutions; give them a test-day reminder card.
- Re-teach list for Thursday retakes.

Questions 1–11 mirror the End of Topic 1 Assessment one for one (same skill, format and order; new numbers).
