TOPIC 2 Systems of Linear Equations and Inequalities

Name _____ Date _____

Reminders
Boundary: solid for ≤ or ≥, dashed for < or >.
Test (0, 0): true → shade its side; false → shade the other side.
Words: at least ≥ · at most ≤ · more than > · less than <.

1. The boundary line for $y \leq 3x + 1$ is…

Tip: ≤ and ≥ → solid. < and > → dashed.

A. dashed, because ≤ includes the line

B. solid, because points on the line are not solutions

C. solid, because ≤ includes the line

2. Which point is a solution of $2x + 3y \geq 12$?

Tip: Substitute, then compare to 12.

F. (1, 2)

G. (0, 3)

H. (3, 3)

3. Graph $y > x - 2$. Describe the boundary line and which side you shade.

> **Tip:** Line first, then test (0, 0).

Line y = x − 2 is _____ (solid / dashed)

Test (0, 0): 0 > _____ is _____

Shade _____ the line
